2 【報告内容】

(1) Type of Securities:

Stock Purchase Rights of the Company, which represent Moving Strike Price Stock Options.

Nature of Moving Strike Price Stock Options

A Purchase Period will commence on the first Trading Day on or after May 1 and November 1 of each year, or on such other date as the Committee shall determine. For this offering, the Purchase Period shall commence on May 2, 2016 and end on October 31, 2016. Using the funds accumulated by means of the Participants' authorized payroll deductions at the maximum rate of 10% during the applicable Purchase Period, the Participants may purchase the Company's Common Stock at the Purchase Price, which shall be currently equal to 95% of the Fair Market Value* of the Common Stock on the Purchase Date (October 31, 2016). Assuming that all Participants participate and contribute the maximum amount of 10% of their compensation, the estimated maximum amount of Contributions during the Purchase Period (from May 2, 2016 through October 31, 2016) shall be US\$ 19,444,354,704 (JPY 2,113,018,025,684). For convenience, the "Number of Shares subject to Stock Purchase Rights" shall be calculated by dividing the above estimated maximum amount of Contributions by 95% (US\$ 16.63 (JPY 1,807)) of the closing price of the Company's Common Stock as reported on the New York Stock Exchange ("NYSE") on April 13, 2016 (US\$ 17.50 (JPY 1,902)). As to the election to participate in the Plan and the authorization of the payroll deduction rate, each Participant is required to follow an electronic or other enrollment process as prescribed by the Committee.

***Fair Market Value** shall be the closing sales price for the Common Share (or the closing bid, if no sales were reported) as quoted on the NYSE on the date of determination if that date is a Trading Day, or if that day is not a Trading Day, the last market Trading Day prior to the date of determination, as reported in The Wall Street Journal or such other source as the Committee deems reliable

Under the Plan, if the Purchase Price of a share of common stock of the Company (calculated as set forth below) decreases, the aggregate number of the shares to be issued by the Company, upon exercise of the Stock Purchase Rights, will increase. The aggregate amount of money to be acquired by the Company upon exercise of the Stock Purchase Rights will not decrease despite any decrease in the Purchase Price.

Under the Plan, the Purchase Price means 95% of the fair market value of a share of common stock of the Company on the Purchase Date, which is the last trading day of the Purchase Period.

The maximum number of shares that may be issued, pursuant to the Plan, shall total 80,000,000.

The purpose of the Plan is to provide an opportunity for employees of the Company and its designated affiliates to purchase common stock of the Company and thereby to have an additional incentive to contribute to the prosperity of the Company. Therefore, there is no lower limit with respect to the purchase price and the amount of funding. Certain Stock Purchase Rights may not be exercised according to the Plan.

The Company has no right to purchase the Stock Purchase Rights under the Plan.

(2) **Description of Stock Purchase Rights, etc.:**

(a) Estimated Number of Shares Subject to Stock Purchase Rights Granted: 1,169,233,596

(note) As of the filing date of this Report, the amount of Contributions and the Purchase Price applicable to the six-month Purchase Period (May 2, 2016 and end on October 31, 2016) has not yet been determined, and therefore, assuming that all Participants participate in the Plan and contribute at the maximum rate of 10% of their compensations, the estimated maximum amount of Contributions during such Purchase Period shall be US\$ 19,444,354,704 (JPY 2,113,018,025,684). The "Number of Stock Purchase Rights Issued" shall be calculated by dividing the above estimated maximum amount of Contributions by 95% (US\$ 16.63 (JPY 1,807) of the closing price of the Company's Common Stock as reported on the NYSE on April 13, 2016 (US\$ 17.50 (JPY 1,902)).

2. Description of Shares:

3. Number of shares to be used for Stock Purchase Rights:

The number of shares to be issued upon exercise of outstanding Stock Purchase Rights will be the number of whole shares obtained by dividing the amount collected from the Participant through payroll deductions during each purchase period by the purchase price in effect for that purchase period.

(note) On the Purchase Date of the Stock Purchase Rights, using the funds accumulated by means of the Participants' authorized payroll deductions during the applicable Purchase Period, the Participants may purchase the Company's Common Stock at the purchase price, which shall be equal to 95% of the closing selling price of the Company's Common Stock as reported on the NYSE on the purchase date. Accordingly, as of the filing day of this Report, the "Number of Shares subject to Stock Purchase Rights" has not yet been determined. Total Amount of Payment upon Exercise of Stock Purchase Rights:

US\$ 19,444,354,704 (JPY 2,113,018,025,684)

(note) As stated above, since the "Amount of Payment upon Exercise of Stock Purchase Rights" has not yet been determined (see above Note 3), 95% (US\$ 16.63 (JPY 1,807) of the closing price of the Company's Common Stock as reported on the NYSE on April 13, 2016 (US\$ 17.50 (JPY 1,902) is inserted for convenience. The actual Purchase Price shall be equal to 95% of the Fair Market Value of the Common Stock on the Purchase Date (October 31, 2016). (See above note under (2)(d)-3).*

(note) As stated above, since the amount of the Contributions has not yet been determined, the total "Amount of Payment upon Exercise of Stock Purchase Rights" shall be determined, for convenience, based on the estimate of the maximum Contributions by the Participants during the Purchase Period (See above note under (2)(d)-3).
